

PRODUCT LITERATURE

SUPERFRESH-ROSE

Product Information

Superfresh-Rose is a new odour absorbing & refreshing finish. Superfresh-Rose imparts durable fragrance to the fabric. Durability of the finish can be further improved by the addition of binder in the recipe. Fragrance is released from micro capsules due to abrasion which occurs under normal wearing condition. Superfresh-Rose is applicable on synthetic and natural fabrics.

Key Features & Benefits

Key Features	Benefits
Durable	Withstands several home launderings
Versatile	Applicable by padding, exhaust, spray and coating techniques

General Characteristics

Physical appearance	Off white to while liquid
Ionic nature	Weakly anionic
pH of 1% solution	7 +/- 1
Miscibility	Dispersible in water
Compatibility	Compatible with anionic and nonionic products
Stability	Stable to dilute acids and dilute alkalies

Application

1. Padding process

Superfresh-Rose	: 8-10 g/l
Pick up	: 65-70%
Bath pH	: 5-5.5
Drying	: 140-160 deg.C

2. Exhaust process

Superfresh-Rose	: 2-3%
Bath pH	: 5-5.5
Bath Temp.	: 30-40 deg.C
Time	: 20-30 min.
Hydroextract and dry	
For Synthetic garment	- Binder not required
For cotton garment	- Binder required
